# BISAS

## PRESIDENT'S PRIZE 2027

## £200 PRIZE

If you are selected for the short-list, you will need to present your submitted abstract to both the judges and the audience of the session. Your presentation should be limited to 5 minutes, followed by a 5-minute Q&A session where judges will ask questions regarding your presentation. This presentation acts as your 'elevator pitch' and must adhere to the outlined prize criteria.

Candidates will be judged based on the quality of their summaries, and those chosen as one of five finalists will have the opportunity to present at the BISAS Annual Conference from April 13-15, 2027. Finalists will be evaluated on their presentation abilities, clarity of content, support for arguments, source explanation, and how well they respond to questions.

To be eligible for the President's Prize, you need to be a BISAS member and have an accepted abstract showcasing your first or second paper at the Annual Conference.
